Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 40 and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Goicoechea et al. (5,609,627).

Goicoechea et al. disclosed a main body support (12) having the first and second segments joined to each other by plurality of sliding links (99a-99e) and first and second branch support structure (16) as is claimed (figures 1A, 1B and 4B-4F, column 8 lines 43-67, column 9 lines 1-67 and column 10 lines 1-63).

Allowable Subject Matter

3. Claims 1, 34-39 and 42-50 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 1 and 34-50 have been considered but are moot in view of the new ground(s) of rejection.
